

Supporting children from developing countries receiving heart treatment in Jacksonville, Florida

In 2017 our twins, Caroline + Will, were exposed to a virus that put them in the Pediatric Intensive Care Unit here in Jacksonville at Wolfson Children's Hospital. We are blessed to live in a city where we had access to specialized medical care for our children when they needed it most. Will passed away at 96 days old due to heart failure caused by the devastating effects of the virus. We started The Will King Foundation to support children who need heart treatment, just like Caroline + Will, but have no access to the care they need in their home countries.

Our Mission

Our mission is to support children from developing countries who are receiving life-saving heart treatment in Jacksonville, FL. We work with a highly-respected local organization, Patrons of the Hearts, which was started by Will + Caroline's cardiologist.

Worldwide, Congenital Heart Disease (CHD), is the most common of all human birth defects. 1 child out of every 100 is born with CHD. It can be life-threatening, but it is highly treatable and can often be corrected by operations which are performed as a matter of routine in the developed world.

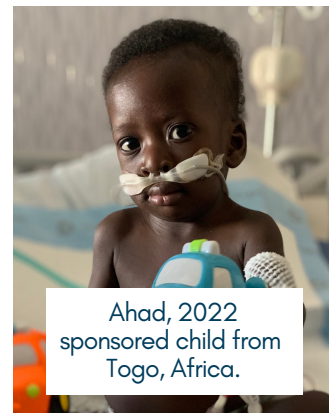

85% of children in the developing world don't have timely access to the heart care that could save their lives. Left uncorrected, these defects can cause considerable suffering and premature death. The lack of facilities, medications and qualified physicians make it difficult to perform these treatments in developing countries.

Gather + Give

Gather + Give is our family-friendly annual fundraising event where our Jacksonville community gathers together to support children from developing countries receiving heart treatment in our city. Your partnership at Gather + Give makes it possible for us to accomplish our mission throughout the year. We are truly grateful for your thoughtful consideration of our 2023 sponsorship opportunities.

Your sponsorship of Gather + Give will support the medical treatment of 2-4 children from developing countries who come to Jacksonville for heart treatment in 2023. It costs \$25,000 to sponsor one child for heart care:

- \$10,000 covers medical costs and lodging at The Ronald McDonald House.
- \$5,000 covers the costs of logistics (securing passports, documentation and pre-treatment testing in the child's home country).
- \$5,000 covers travel costs (plane tickets to and from the child's home country).
- \$5,000 covers costs to support the child and their family during their time in Jacksonville by providing meals, toys, clothes and other items they may want or need during their stay.

Ahad, 2022
sponsored child from
Togo, Africa.
